- **Untapped Credit Market:** Only 20% of India's credit-eligible adults have accessed formal credit.
- **Digital Infrastructure:** JAM trinity, UPI have expanded reach to Bharat.
- **Diverse Profit Pools:** Banks, NBFCs, Insurers, AMCs, Fintechs – the ecosystem is thriving.

JAM trinity - Jan Dhan Yojana, Adhaar and Mobile number  
NBFCs - Non Banking Financial Company  
AMCs - Asset Management Companies

#### Financialization of Savings - A Structural Tailwind for BFSI

- India is witnessing a paradigm shift from physical to financial savings, with households increasingly opting for mutual funds, deposits and digital financial instruments.
- Financial assets offer better liquidity, transparency, and long-term return potential for individuals, while also boosting formal capital flows into the economy.
- This transition supports the growth of the BFSI sector by widening the investor base, enhancing credit access, and enabling productive allocation of capital.
- As both a beneficiary and an enabler, BFSI is uniquely positioned to ride this long-term secular trend.
